# Construction Update No. 1J

## Country Club Area Sewer, Water, and Street Reconstruction Project

### City Improvement No. A-213 and A-214

September 3, 2008

This update is for Stage 4 homeowners only.

Due to rainfall, irrigation systems, and hand watering, the condition of the roadway along Casco and Drexel Avenues has become unacceptable to construct a new roadway. The photograph below is an example.

During the past few weeks, the project team has tried to find the cause of the problem. During the week of September 8, Palda plans to begin installing the new curb and gutter and driveway aprons. In order to do so the following things need to occur to remedy the standing water problem.

- Palda will install stabilizing rock.
- Palda will pump the water from the puddles.
- You will turn off your irrigation systems.

#### City Hall

4801 WEST 50TH STREET  
EDINA, MINNESOTA, 55424-1394

952-927-8861

FAX 952-826-0390  
TTY 952-826-0379

- You will stop hand watering flowers and/or trees if the water drains to the street and/or boulevard.

Please turn off all front yard zones of your irrigation system and do not water flowers and/or trees if the water drains to the street and/or boulevard.

Call or e-mail me at SEH with your questions and concerns, 952.912.2633 and [cmillner@sehinc.com](mailto:cmillner@sehinc.com).

Sincerely,

Chad Millner, SEH
