**Where:** Edina City Hall, Council Chamber and Adjacent Foyer  
4801 West 50<sup>th</sup> Street

---

The City of Edina and the City's engineering consultant for this project, SEH, invite you to attend an open house to learn more about the revisions made to the 2005 study. At this open house, you will have the opportunity to see and ask questions on the following preliminary items:

- Reconstruction plans for mainline sanitary sewer and water main pipes; City owned portion of individual sanitary sewer services and water services; storm sewer pipes; and street lighting.
- Reconstruction plans for streets (including residential area safety improvements); sidewalks; and boulevard areas.
- Project costs.
- Individual property costs (special assessments).
- Project schedules.

These items will be displayed on graphic boards set-up in the City Council lobby; no formal presentation will be held, so stop by anytime between 5 and 7 PM.

Staff will shortly be requesting from the Edina City Council a December Public Improvement Hearing. At this public hearing, the City Council may order the preparation of bidding documents for this project. Notices will be mailed to you 10-days prior to the public hearing.

We look forward to seeing you at the Open House.
